Muhammad Kamil Arif

WEB DEVELOPER

(+92) 331 2511066 – urfik0005@gmail.com – urfik005@hotmail.com – GitHub

Summary

Versatile Full-Stack Developer with experience in building web and desktop applications using React, Node.js, Python, and C#. I am skilled in database integration, automation tools, and user-focused UI/UX development. Passionate about security-aware development with hands-on exposure to penetration testing and activity monitoring applications. Always eager to explore new technologies and contribute to high-impact projects in a dynamic organization.
